Transfer Students	7%	75%	10%	45%	8%	38%
<i>Age</i>						
Non-Traditional (24 or older)	12%	85%	8%	37%	6%	31%
Traditional (less than 24)	82%	15%	90%	63%	94%	56%

<sup>a</sup> Response rate (number of respondents divided by sample size) is adjusted for non-deliverable mailing addresses.

<sup>b</sup> Oversampled students are included in institution numbers but not in consortium, Carnegie, or NSSE 2004 sample numbers.

<sup>c</sup> Sampling error is an estimate of the margin by which the 'true' score for your institution on a given item could differ from the reported score. To interpret the sampling error, assume that 60% of your students reply "very often" to a particular item. If the sampling error is +/-5%, then the true population value is most likely between 55% and 65%.

<sup>d</sup> Each number represents the percent of total respondents within the category.
